AI DECLARATION

We, the members of this group, acknowledge the use of Microsoft Copilot to help generate visual images of certain mockups and to remove some unwanted backgrounds of images for this presentation.

Microsoft Copilot was used during the week of 6–12 May 2026 with the following prompt:
“Generate tumbler and water bottle mockups using our Cope & Hope logo and our company colours (#89CFF0, #F8C8DC, #C8E6D0). Keep the design clean, minimal, and consistent with our brand identity.”

Microsoft Copilot was used during the week of 13–18 May 2026 with the following prompt:
“Remove the background from the hoodie and T-shirt mockups shown in the screenshots to make them transparent for easy copy and paste. Do not change the colours, design, or layout — only remove the background.”

These AI-generated edits were used only to support the representation of our business concept, and all written content, ideas, analysis, and design decisions were produced independently by the group.
